immediately.“

Attractive Growth Challenge with German MES Market Leader

The worldwide MPDV Group with headquarters in Germany is an internationally successful market leader with 280 employees in 11 locations worldwide, providing trendsetting Manufacturing Execution System (MES) solutions mainly for discrete manufacturing companies ranging from SME's to MNC's in the fields of metal & plastics precision engineering, automotive components, machinery building, assembly, medical & pharma components/products, printing/packaging/paper, aerospace/aviation parts, electronics/electrical engineering, food & beverages production, woodworking/furniture. MPDV's core product is the MES HYDRA for production, personnel and quality being deployed around the globe for the integrated management of virtually any data pertaining to the discrete production shop floor environment. MPDV looks back at a more than 35 years old history of controlled & sustained growth with sound economic health and an excellent future outlook. Our MPDV China subsidiary in Shanghai acts as domestic base for sales, project management, installation, customer support. To strengthen our MES Consulting section, we are looking for qualified

IT Consultants (Manufacturing IT / MES) in Shanghai, MPDV China

Your Challenges / Your Environment:

The desired candidate shall be a pleasant extrovert & eloquent person that is able to listen, analyze, propose, lead and convince the customer's production/management team.

LISTEN: Listening to manufacturing company's existing pain points in the current environment ("As Is")

ANALYZE: Assess the current situation, probe into / dig deeper into details of existing environment and it's problems in the manufacturing information environment.

PROPOSE: Establish the solution architecture on the basis of MPDV's customizable standard MES HYDRA Software system, to eliminate all pain points, i.e. conceptualize the "To-Be" situation

LEAD and CONVINCe: Stay the course, and resolve conflicts. Motivate the customer's team for the proposed solution, make the user understand, make the user appreciate it, under consideration of all given constraints.

Your Personality:

- High sense of loyalty, with the appreciation for a long-term relationship
- Self-starter with high level of self-confidence and sense of urgency
- Able to work highly independent, with high organizational talent
- Outgoing pro-active personality with high entrepreneurial spirit & motivation

Your Qualifications:

- Bachelor or Master degree or equivalent certificates in Manufacturing / SCM / Logistics, Industrial Automation, IT
- 2 years working experience in related field of MES / Manufacturing IT / Industrial Automation / Production Management / Consulting
- Strong communication and interpersonal skills in Chinese and English
- Good command of Microsoft Office applications such as Word, Excel, and Power Point, etc.

To Apply:

If you are interested in this challenging long-term oriented task of building the MPDV China domestic consulting competence, in an interdisciplinary role with Customer, MPDV Sales, MPDV Project Management and MPDV SW-Development, then kindly email your application, CV incl. current salary and photograph to Mr. Sascha Gräf, MPDV Software & Technology Services (Shanghai) Co., Ltd., Email: sascha@mpdv-china.cn.

Only complete applications in English language will be considered! The successful candidate can look forward to working with a long-term oriented employer with attractive employment conditions.

The MES Experts!
